MEMORANDUM FOR: SECOM Compartmentation Subcommittee Members

SUBJECT: Third Proposed Revision of DCID 1/7, "Control of Dissemination of Intelligence Information"

1. Attached is the third proposed revision of DCID 1/7. This revision incorporates the consensus reached by members of the Compartmentation Subcommittee at our last meeting and restructures the paragraphing to provide more clarity and distinction with respect to rules on release to Intelligence Community organizations as well as release to foreign governments. The proposed revision also correlates policy on release of intelligence to contractors with wording already prescribed in the attachment to DCID 1/19 on this matter.

2. Request your vote sheet action on the attached draft. Please return your completed Vote Sheet to the Executive Security of the Subcommittee by 12 January 1979.
